simple. To replace a ceiling fixture, the first thing you do is turn off the power.

### Electrical Wiring - dummies

An electrical cable is classified by two numbers separated by a hyphen, such as 14-2. The first number denotes the conductor ' s gauge;

# Bookmark File

## PDF Beginners

the second denotes the number of conductors inside the cable. For instance, 14-2 has two 14-gauge conductors: a hot and a neutral. This cable also contains a bare copper wire as the ground.
