Burdensome Katzenjammer Mystify Wondrous Zany These are five of the twenty-six words, one for each letter of the alphabet, that appear in *Weighty Words, Too*. As with the earlier *Weighty Word Book*, the stories, often fanciful, help young readers build their vocabularies. "Hibernate" tells the tale of Nathaniel, a very energetic Canadian bear, who plays in the snow with the other bears. Soon all the bears tire and want to sleep, with the exception of Nate. "He's hyper," one grizzly bear observes. "If it's winter sleep you want," advises Nathaniel, "then I suggest you do the opposite from me, hyper Nate." So, whenever animals sleep through the winter, think of "hyper Nate," and you will remember the word HIBERNATE.

Stephen Baxter's epic sequence of Xeelee novels was introduced to a new generation of readers with his highly successful quartet, *Destiny's Children*, published by Gollancz between 2003 and 2006. But the sequence of novels began with *RAFT* in 1991. From there it built into perhaps the most ambitious fictitious universe ever created. Beginning with the rise and fall of sub-quantum civilisations in the first nano-seconds after the Big Bang and ending with the heat death of the universe billions of years from now the series charts the story of mankind's epic war against the ancient and unknowable alien race the Xeelee. Along the way it examines questions of physics, the nature of reality, the evolution of mankind and its possible future. It looks not just at the morality of war but at the morality of survival and our place in the universe. This is a landmark in SF.

The year is 635,039 A.D., and the world has descended into an ice age. Human beings no longer rule the Earth. Instead, a post-human race of creatures has emerged from the chaos, and they are hell-bent on destroying "prehistoric man" in order to take control of the planet. Against them stands nothing but a prophecy, foretelling the victorious arrival of the Seventh Shepherd. Jebden Gale is an unlikely hero. Living in an isolated village deep within the new ice sheet, he has a special ability to connect with a higher power. Although he despises his relationship with the gods, Jebden appears to be chosen by them for greatness. Could he possibly be the Seventh Shepherd? Time is short. The godless post-human hordes sweep the world, destroying surviving human enclaves one by one while their dying race waits for a sign. In order to strengthen Jebden, the gods must forge a partnership among the few remaining humans with the ability to guide their chosen one. But will Jebden realize his destiny in time, or will his weakness mean the end of the human race?
