Make Getting Started with p5.js Making Interactive -

In the p5.js web editor you should find the following code: function setup() { createCanvas(400, 400); } function draw() { background(220); } After background(220); include this line of code: ellipse(50,50,80,80);. Now your code should be like this: Code snippet with ellipse.

get started | p5.js

p5.js is for writing software to make images, animations, and interactions. The idea is to write a single line of code, and have a circle show up on the screen. Add a few more lines of code, and the circle follows the mouse. Another line of code, and the circle changes color when the mouse is pressed.
