Polkinghorne, D. (1988) Narrative Knowing and the Human Sciences. Introduction. Realms of Human Existence. Material (matter) Organic (life) Mental (consciousness) Narrative meaning is a process within the mental realm and functions to organise human experience into temporally meaningful episodes.

Polkinghorne, D. (1988) Narrative Knowing and the Human ...

Narrative inquiry is a form of qualitative research, that emerged in the field of management science and later also developed in the field of knowledge management, which shares the sphere of Information Management. Thus Narrative Inquiry focuses on the organization of human knowledge more than merely the collection and processing of data. It also implies that knowledge itself is considered valuable and noteworthy even when known by only one person.

Narrative inquiry - Wikipedia

This book expands the concept of the nature of science and provides a practical research alternative for those who work with people and organizations.
