Oracle database 12c has about 500+ new features when compared to 11gR2. Among these features there will be some which get the mainstream attention. But often little caveats or enhancements prove to be as vital as the big ones. One such enhancement is the ability to have multiple indexes on same column or same set of columns.

Also, the primary focus of Oracle 19c is more on improving software stability than adding a bumper crop of features, according to Oracle. The new version is due to be the last in the Oracle Database 12c Release 2 product family, renamed to hew to the annual update schedule that the company adopted starting with the delivery of Oracle Database 18c earlier this year.
