A technical report is a formal report designed to convey technical information in a clear and easily accessible format. It is divided into sections which allow different readers to access different levels of information. This guide explains the commonly accepted format for a technical report; explains the purposes of the individual sections; and gives hints on how to go about drafting and ...

## Guide to Technical Report Writing : Study guides ...

Technical documentation refers to any document that explains the use, functionality, creation, or architecture of a product. Think of it as a nuts-and-bolts “how to” guide for your users, new hires, administrators, and anyone else who needs to know how your product works. But while that sounds pretty straightforward, the results rarely are.

### Technical Literature - Hilti Great Britain

Manual drafting techniques typically involve drawing different line weights to represent different items. Different line weights can be created by using a different size mechanical pencil lead, or a different size of technical drawing pen. Exterior walls are typically drawn on floor plans and sections with heavy, solid lines.
