On this reading of Plato's natural  
philosophy, a study of the natural world  
provides objective grounds for the view that  
nature by its teleological order promotes the  
rule of reason over necessity. This is  
ethically significant since we face as human

Plato > By Individual Philosopher >  
Philosophy

The task of philosophy, for Plato, is to discover through reason (" dialectic ") the nature of the Forms, the only true reality, and their interrelations, culminating in an understanding of the most fundamental Form, the Good or the One. Aristotle rejected Plato's theory of Forms but not the notion of form itself.
