As the first reefer container monitoring system ever, Reefer Runner passed NavisReady validation in December 2015. The certificate confirms that IDENTEC SOLUTIONS wireless remote monitoring and control system for refrigerated containers interfaces directly with the Navis N4 2.6 container terminal operating system (TOS) which works right out of the box, without additional modifications.

Triton International

Reefer sockets used to power reefer containers A refrigerated container or reefer is an intermodal container (shipping container) used in intermodal freight transport that is refrigerated for the transportation of temperature-sensitive cargo.

Refrigerated container - Wikipedia

Reefer containers have a refrigeration unit on the bulkhead end of the container. While it's not a blast freezer, most reefer units are capable of maintaining temperatures as low as -20F. Refrigerated shipping containers are also insulated, and usually painted a light color (like white or grey).
