In his new book 'The Zoologist's Guide to the Galaxy,' Arik Kershenbaum argues that using earthly evolutionary biology is the best way to picture interstellar life ...

How do aliens look? An Israeli zoologist's down-to-earth theory on ET evolution  
We usually assume that inbreeding is bad and should be avoided under all circumstances. But new research performed by researchers at Stockholm University, published in Nature Ecology and Evolution, ...

Mating With Relatives? New Research Shows It Is Not a Big Deal in Nature  
One of the most influential man, Charles Darwin is known for his remarkable contribution in the field of science and evolution. His radical Theory of Evolution published in the 1859 book On The Origin ...

Charles Darwin Death Anniversary: Lesser-known Facts About the 'Father of Evolution'  
Originally published in 2005, Information Theory, Evolution and the Origin of Life presents an introduction to the use of information theory and coding theory in molecular biology. The genetical ...

Information Theory, Evolution, and the Origin of Life  
is a puzzle for evolutionary biology because of the intrinsic selfishness of living things (Queller 1997; Sachs et al. 2004). So foundational is selfishness to the contemporary theory of natural ...

The Major Transitions in Evolution Revisited  
The good sheik evidently holds the Copernican theory to ... of creation was evolution, intentionally to mislead sincere seekers of truth. The remarkable advances of molecular biology in recent ...

Nothing in Biology Makes Sense Except in the Light of Evolution  
For over 150 years—since the time of Charles Darwin—the Theory of Evolution ... Indeed, the scientific fact that is evolution is the basis of most of biology. To that end, this is a complete ...

Three Pieces of Evidence That Prove Evolution is a Fact  
This collection reports on the latest research on an increasingly pivotal issue for evolutionary biology: cooperation. The chapters are written from a variety ...

Cooperation and Its Evolution  
Darwin shared his theory of evolution by natural selection with the scientific community. However, his ideas challenged the idea that God made all the animals and plants that live on Earth ...

The impact of Darwin and Wallace's ideas on modern biology  
A central component of biology and biotechnology, modern evolutionary theory is also based on evidence derived from chemistry, physics, geology, and other disciplines. Because of the overwhelming ...

Teaching of Evolution: Fact and Theory  
Charles Darwin's theory of evolution by natural selection made ... meant he had plenty of time to pursue his real passion: biology. He spent much of his time collecting beetles and walking on ...

Charles Darwin: Evolution and the story of our species  
SCIENTISTS are excited today (April 29) to reveal the discovery of an evolutionary 'missing link' - a billion-year-old fossil that could help bridge the gap between single-celled organisms and more ...

Billion-year-old fossil is the missing link that fills gap in evolution of complex animals  
Studying the evolution of biological soft matter and the mechanisms by which they assembled, may lead to creating new biofuels, chemicals, and materials.

Giant clams, pollen, and squid eyes - blueprints for a better world  
To tackle this challenge, areas of conservation biology that are ... of niche conservatism and evolution in heterogeneous environments Robert D. Holt and Richard Gomulkiewicz 14. Adaptive responses to ...

Evolutionary Conservation Biology  
Biological evolution: Lamarck's theory of use and disuse of organs, Darwin's theory of evolution; mechanism of evolution - variation (mutation and recombination) and natural selection with ...

CBSA Syllabus 2021-22 for Class 12 Biology (New): CBSA Academic Session 2021-22  
And, while England sees his theory as underlying Darwinian evolution, some disagree that this dissipation-driven adaptation theory could distinguish between things that are simply structured in a ...

New Theory for Life Suggests It Was Not an Accident of Biology. It Was Physics.  
The Department of Biology offers advanced degrees at both the master's and doctoral level. Excellent research facilities are available in individual faculty labs; the department also maintains a core ...

Biology Programs at SLU  
UChicago scholars from a range of disciplines have been elected to one of the nation's oldest and most prestigious honorary societies.

Eight UChicago faculty elected to American Academy of Arts and Sciences  
Bohannon, Professor, University of Oregon, Department of Biology Elected for fundamental ... framework of plant ecology and evolution, extending trait-based theory to wood dynamics and fungi ...

Ecological Society of America announces 2021 fellows  
The idea that animals should avoid mating with relatives has been the starting point for hundreds of scientific studies performed among many species. But new research performed at Stockholm University ...
