Vhf Marine Transceiver Defender - vldocs.bespokify.com

The VHF Radios’ AIS Receiver may alarm for collision with your own vessel because it doesn’t have a way to filter out your own MMSI. In the Icom m506 and m605 AIS models, for example, there is a menu setting to enter any MMSI’s that should be ignored, such as your own, or your tender (if applicable).

Choosing a VHF DSC Radio and AIS Transponder Combination ...

All marine VHF, MF and HF radios require the user and vessel to hold a relevant licence. The vessel’s licence is like a car tax disc, but it is also the key to obtaining an MMSI number. You can obtain an application form for a ship’s radio by applying via: ofcom.org.uk.

Barbican Unites to tackle crime using Icom Radio Network ...

Marine VHF radio is a channelized system making the radios relatively easy to use. Channels go in a sequencing number from channel 1 to 28 and then 60 to 88, between 28 and 60 are private channels. Some channels are simplex, meaning the radio transmits and receives on the same frequency. Simplex channels are used for ship to ship and ship to shore communications.
